

# Special Visitors

What a fabulous week we have had so far with so many special visitors popping in. Grandparents, aunties, uncles, older brothers and sisters, neighbours and family friends. Some travelling long distances to spend time with our children in their kinder environment.

The children loved inviting their special person and even more excited when all the visitors started coming in.

We would love to hear any feedback from families about our special visitors week.

**Element 6.2.3 Community engagement** The service builds relationships and engages with its community.
