Pre Prep

Four-Year-Old Kindergarten will gradually transition to Pre-Prep from 2025, with programs across Victoria increasing from 15 to 30 hours each week.

With Alexandra kindergarten nominated in the first roll out to increase hours we will be changing our Pre prep sessions in 2025 from 15 hours per week to 17 or 18 hours per week.

Pre-Prep is designed to increase the hours of teacher-led play-based learning in the year before school that will continue to align with the Victorian Early Years Learning and Development Framework.

Pre-Prep will give children even greater access to the many benefits of early childhood education, including more time to develop important social and emotional skills.

Teachers and educators will have more time with children to be able to provide deeper and more deliberate play experiences, which will give children more opportunities to embed their learning.

The full roll out of Pre prep and the expectation to offer 30 hours of kinder is not expected until 2036.

Pre-Prep, like Four-Year-Old Kinder in 2024, will be free for children at participating kindergarten services across Victoria.

There will be no charge for children who attend standalone (sessional) kindergartens such as Alexandra kindergarten.

If you have any questions please feel free to contact the kinder office.

On behalf of the other educators I'd like to thank all of the dads and special friends that came along to the park on Tuesday afternoon. It was a great turnout with the children all having fun with friends and adults enjoying a catch up.
